

“We make life simple for busy importers, exporters & other shipping companies.”

Sea Sands Shipping provides several port-to-port and port-to-point services to importers, exporters and other shipping companies:

Sea, Air and Land Transport & Business Logistics

Are you looking for a proven, cost-effective multimodal shipping & logistics company?

Sea Sands Shipping offers Full Container Load (FCL), Less than Container Load (LCL), bulk, break bulk and project cargo shipping from & to Africa, Asia and Europe.

Our logistics division handles inland shipment trucking from Dubai to the neighboring countries of the UAE. We truck everything from general cargo to heavy equipment.

Warehousing, Customs Clearance and Documentation

We not only take care of the shipping, we also help you stay on top of customs tariffs, import & export regulations and maritime law.

From stevedoring to customs clearance of cargo, we make life simple for our clients.

Bulk, Break Bulk and Roll-on/Roll-off Cargo

Our tramp service could be just what you need to ship bulk or break bulk cargo to or from Asia, Africa and Europe.

Or you can charter a vessel instead or make use of our roll-on/roll-off service from the UAE to Iraq.

Tug/Barge

If your project is located in Iraq or anywhere in the GCC region, a tug/barge can be cost-effectively put at your disposal at short notice.

Project Shipment Handling

We even take up oversized and heavy industrial equipment shipping by land or sea. We can also help you with offloading special project cargoes and transport engineering, including installation.

Agency Activities

As a container liner agency we already represent a number of lines in Dubai and Iraq. We monitor containers right from their discharge until their reloading for the onward journey. We take care of everything, including the operations, commercial aspects, documentation and customer service.

Chartering

We can quickly charter various types of vessels on a spot, short-term or long-term basis.

Container Terminal & Iraq Feeder Service

Our container terminal in Dubai's Al Hamriya port also doubles as the starting point of our feeder service to Iraq. The terminal can house laden/empty containers, break bulk and roll-on/roll-off cargo. We can also take care of stuffing, de-stuffing and cross-stuffing requirements.

Ship Management

We provide several ship management services, including:

- Technical management
- Cargo shipping
- Consultation
- Business plans
- Vessel pre-purchase evaluation & selection
- Memorandi of vessel sale & purchase agreement
- Vessel delivery

We also troubleshoot issues connected with chartering vessels and negotiate with brokers to realise the best-possible deals.

Our commercial management services include:

- Chartering vessels for time-definite cargo shipment
- Post-fixture operations
- Voyage balance calculation
- Preparation of voyage instructions
- Arranging bunkers delivery
- Arranging ship surveys on cargo matters
- Time-charter operations
