

## See your child graduate as a global citizen

### Introducing Pioneer World School

Your child will spend most of their formative years at school. That's why, Pioneer World School aims to ready your child for life *after* school, including global tertiary education and employment. We use the STEAM\* education approach to help build your child's scientific curiosity, imagination and problem-solving abilities. Across grades K-12, our American curriculum follows the US AERO† Common Core Plus Standards, which is unmatched in course choice and content quality. Upon graduation your child receives an American High School Diploma. Pioneer welcomes new students (nursery through Grade 12) throughout the year.

Plot #16, Kavuri Hills (Extension of Road #36, Jubilee Hills).
